Microfiber Floor Care System for the **PROFESSIONALS**

Microfiber Floor Care System

Clean Green With Us!

- **Use** for Dust, Damp, or Wet Mopping.
- **Cost Effective** 3 times more productive than a conventional string mop, effectively covering 22", 16", 11" per stroke.
- **Easy and lightweight.** Handles like a dust mop and weighs less than 5 lbs.
- **Quick on the spot.** Change of flat mop head using reliable Velcro exchange system. Eliminates water dripping, common with conventional string mops.
- **More Hygienic cleaning with microfiber.** More aggressive and effective than conventional textile string mops. Uses a clean microfiber mop every 1,500-2,000 sq.ft.
- **Safe and Environmentally Friendly.** Shorter drying time helps to prevent slip and fall accidents. Uses up to 70% less water and chemicals, and applies only uncontaminated cleaning solution to the floor via pressurized tank.
- **Several patents**

Made in USA

Ideal for vinyl, ceramic tile, slate tiles, wood, or polished stone floors.

Cleaning solution is sprayed through a pressure pump system.
