

MICROFIBER ADVANTAGE

AVET Microfiber Mops VS Conventional Mopping

Take a look at the many benefits that our line of microfiber products can offer your facility. Our reps can offer you solutions to your questions, help aid in training, give you helpful tips, tell you about our products and much more. Let us help you understand the differences between the microfiber products. Find out why people choose AVET Microfiber.

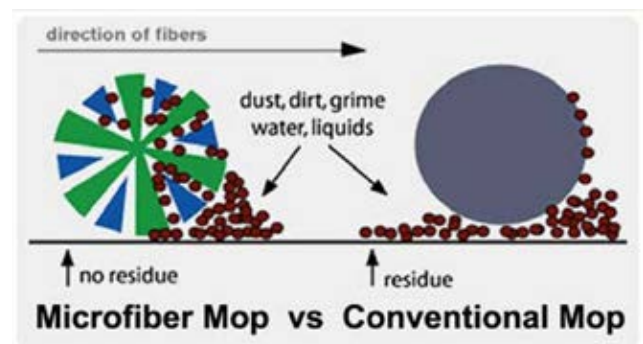

Benefits Of Microfiber

- Washable
- Wet or Dry Use
- 3-5 Times Durability
- Cleans and Dries Sx Faster

Microfiber Features

- Strong, lint-free, ultra-fine fiber
- Polyester/polyamide fibers that split to 1/16th the diameter of a human hair
- Microfiber fibers hold six times their own weight in fluid
- Splitting fibers creates thousands of microscopic channels that collect, absorb and remove dust
- Positively charged microfibers attract negatively charged dust and dirt, enhancing your cleaning performance
